ONE INTERNSHIP.
ONE CITY.
A WORLD OF DIFFERENCE.

PROJECT 1013

The Project 1013 Internship Program offers a unique opportunity in dealing with the planning and execution of a growing community outreach program, providing an experience that is customizable to each student's God-given talents and allows them to grow in their gifts.

LIVE.

For the 10 month and 5 month programs, housing will be provided either by a house on the church property or individual placement with a church family.

LEARN.

Of their own initiative, students can take advantage of their proximity to Rock Valley College and work toward their degree while in the internship program. Rock Church will also be offering Bible classes for the students during the year.

WORK.

Expenses outside of basic housing–including food, clothing, and gas–may require students to take up a part-time job, for which Rockford offers various options of employment.

DISCOVER.

This internship will encourage students to discover their heart for local missions ministry by serving the poor and under privileged, and restoring hope to a city in need.
